

City of Cottage Grove – Public Works Crew

In the coming week, the City crews will be working on the following projects:

1. ***Tuesday, March 27*** – City crews will be ***repairing a sanitary sewer main*** under the parking lot located between the Community Center and Gibbs Avenue. The facility will be closed to the public while the utility repairs are completed.
2. ***Temporary construction signs*** protecting the concrete repair in the southbound lanes of Highway 99 at E Adams Avenue will be removed Monday, 3/26.

Please slow down and watch for workers.

Our safety is in your hands.

Row River Road Pedestrian Crossing

- The crosswalk and beacons are now operational.
- The project will be considered complete pending inspections by Oregon Department of Transportation and City engineering staff, which are tentatively scheduled to occur soon.

Row River Road – New Pedestrian Crossing

Gateway Boulevard

Gateway Boulevard and the main driveway were opened last week for normal vehicle traffic with the completion of paving the transition panels.

The last phase of the project will occur in April, and will include cold-planing the existing pavement and applying new asphalt, striping and vehicle detector loops. This work will be located within Gateway Boulevard, extending south approximately 210-feet from the CG Connector intersection.

- The work will occur when temperatures are sufficiently high enough to meet ODOT specifications for paving the top course of asphalt.
